Fermentation: Stainless Tank
Yeast: Cultured Yeast
Addition Free: No Sulfur Dioxide
Barrel Aging: 100% New American Oak 12months
Cases Prod: 38
Alcohol: 12.5%

Vineyard Description:

Southern facing 1.5 acre (0.6 hectare) small vineyard is cautiously organic farmed by a professional vine grower, Mr Jeong. Situated on the northern part of Youngcheon-si, which is one of the most well-known wine producing regions in Korean for its plenty of sunshine with a relatively low rainfall while having a huge diurnal temperature range. This basin area surrounded by mountainous land creates a particular mezzo climate to grow outstanding grapes.

Winemaker Notes:

Full of joy of its different flavour profile from conventional Cabernet Sauvignon while retaining balanced vivid and rounded light texture owing to the eco-friendly and the low-intervention technique of wine making. A wide range of berry characters are well harmonized with the sweet and spicy oak characters. Performance now but still has potential for a longer ageing.
